NUMBER 45

ACREAGE OF BURLEY SHOWN BY REPORTS

Many Counties Have Cut Out Crop Entirely.

Reports from twenty-eight counties in the Burley district give M. C. Rankin, Commissioner of Agriculture, a fair idea of the amount of tobacco that will be raised east of Louisville this year. The number of plant beds sown is small in some of the counties that have been reported that it is hardly worth noting.

If there were not a fight on between the growers and the trust the tobacco crop in the Burley district would be regarded as an absolute failure. None of the large tobacco producing counties will raise any tobacco at all. The following counties have made reports of the plant beds sown:

Anderson, 5 per cent; Bath, none; Boone, 3 per cent; Bourbon, none; Boyle, 10 per cent; Bracken, none; Carroll, 1 per cent; Grant, none; Harrison, none; Henry, 10 per cent; Jessamine, 5 per cent; Kenton, none; Lincoln, none; Madison, 10 per cent; Mercer, none; Montgomery, 10 per cent; Nicholas, none; Owen, 5 per cent; Pendleton, 1 per cent; Robertson, none; Shelby, 2 per cent; Scott, none.

Reports show that in the following counties there will be no tobacco grown at all: Fayette, Clark, Franklin, Mason, Woodford, Gallatin and Bracken.

"In God We Trust" Goes Back.

The Senate Committee on Finance the 12th voted unanimously to report the bill already passed by the House providing for the permanent restoration of the words "In God, We Trust" to gold and silver coins of the United States. The motto was taken off the coins by order of the President.

Attacks Bryan's Son-in-Law.

At Paris, France, W. H. Leavitt, son-in-law of W. J. Bryan, had a dangerous encounter with an Italian named Canna, who had been sitting for Mr. Leavitt as a model in connection with a picture which the American artist is painting for the City Hall at Denver, Colo.

After being released, Canna returned repeatedly and demanded extra compensation. This was refused him. The model, armed with a bludgeon, struck Mr. Leavitt on the head. The artist defended himself with a knife. The Italian was arrested and taken to a hospital. Mr. Leavitt was cut on the head by the stick.

Great Success.

F. P. Clay, Jr., Paris, Ky., says: "I have had great success with Bourdon Poultry Cure. On several occasions have cured chickens that were too sick to walk or stand up. Have lost but one old chicken this year." Sold by W. S. Lloyd.

Hydrophobia KILLS Mule.

Two valuable mules, the property of Stanhope Brothers, near South Elkhorn, were attacked with violent cases of hydrophobia, causing the death of one and necessitating the killing of another.

Hopes to Report to Present Congress.

The select committee of the House, which is investigating the wood pulp and print paper question, is working hard to make its report at this session of Congress.

NIGHT RIDERS' VICTIM GETS \$35,000 DAMAGES

Federal Court Decides He Has Proved His Case Against Brother.

At Paducah, Ky., a verdict for \$35,000 was returned for the plaintiff in the Robert Hollowell night rider damage suit. The jury was out but thirty-five minutes.

The jury from Jefferson and Bullitt counties was one of the most intelligent looking that has ever filled the jury box in the Federal Court. Some were business men, some farmers and others employees. The lowest amount favored was \$25,000, and six favored the full amount of \$50,000. One of the jurors said the verdict could have been reached in ten minutes had not one or two Louisville men been so firm for giving the full sum.

One bit of evidence that impressed farmers on the jury was the fact that not a defendant went to see what had occurred at the Hollowell home that night or the next day, although they lived all the way from two hundred yards to six miles from the home.

Robert H. Hollowell sued John Hollowell, his brother, and twenty-seven other alleged night riders.

The manufacturers needed the money, and we saw a good chance to give our trade extraordinary values for their money, is why we bought and sell these suits at \$9.95. Guthrie Clothing Co.

Mexican War Veteran Dead at Frankfort.

At Frankfort on May 13, John E. Miles, aged 86 years, one of the best known and oldest citizens, died. He leaves only one survivor of the Mexican war in the county. Mr. Miles came into added prominence at the time of the murder of Governor William Goebel by his daring arrest of Harlan Whitaker, one of the suspects.

Report of Grand Jury.

To the Honorable Judge of the Montgomery Circuit Court.

Your Grand Jury would beg leave to make the following report: After being in session six days, we have examined eighty-two witnesses and found numbers of true bills. We had brought before us every witness whose name was presented to us that would likely know of any violation of the law, as well as those whom our personal knowledge would indicate, and after reasonable diligence on our part we find the general moral tone of the county fully up to the very highest standard, which we are pleased to attribute to the fearless and impartial distribution of justice by our distinguished Circuit Judge and Commonwealth's Attorney as well as every county officer whose duty it is to execute and maintain the dignity of the law and by this course which was no less than their duties, they have challenged the admiration and commendation of each and every citizen of the county of Montgomery.

We examined the public buildings and find them in good condition and well kept, the prisoners confined in the jail are well fed, and it is suggested by your Grand Jury that the cells be white washed to improve the light and the general sanitary condition of the prison.

We find, after examining the reports of the officers who are receivers of public moneys, that they have paid over all amounts coming into their hands to the proper officer designated by law.

The turnpikes of the county, especially the Paris pike, are in bad condition, and there being some doubt in the minds of your Grand Jury as to the resources to make them up to the requirements of the law, we recommend that you issue a rule against the members of the Fiscal Court and have them show cause why the present conditions exist.

All of which is respectfully submitted. D. J. BURCHETT, Foreman.

Mt. Sterling Beats Kentucky Wesleyan.

At Winchester the Mt. Sterling baseball nine won from Kentucky Wesleyan College Wednesday afternoon by a score of 23 to 1. Chennault's pitching and Scott's batting attracted notice.

FULL MEASURE. Green Seal Paints are put up in U. S. Standard measure. You get what you pay for. Thos. Kennedy.

NEGRO BILL

Goes Over to December on Motion of Ohioan.

At Washington on Wednesday further consideration of the Brownsville affair was postponed by the Senate until December 16, next. Senator Foraker, after urging the appointment of an early day for voting on his bill, moved that it be taken up next December. After a motion by Senator Culbertson, of Texas, to vote on the bill Saturday was laid on the table, Mr. Foraker's motion was adopted 62 to 6.

Mr. Foraker says that while he could not have passed the bill now, he thinks he can by the postponement.

Did You Get One?

O., May 1, 1908. Advocate Pub. Co., Mount Sterling, Ky.

Dear Sirs:—We have this day set aside for your use, four quarts of our choicest product—bottled-in-bond whiskey—and we ask your permission to ship it to you—at our risk—and on our personal guarantee that you will find it one of the most delicious whiskeys you ever tasted—and the best value you've ever known—or it will not cost you one cent.

We do not ask you to send us any money in advance. Just sign and mail us the enclosed post-card and we will send the four quart bottles of this fine old whiskey—in plain sealed case—no marks to indicate contents—and we will pay the express charges. When it arrives—try it—every bottle if you like—and if you find it all we claim remit us \$3.50. Otherwise you may return the balance of the goods and we will stand all the expense, etc.

Try it—that's all we ask. Favor us with your immediate reply. Very sincerely,

And they might have added: Yours for disgrace and hell.

We expect to see the time when national laws will prohibit the shipment of intoxicants from one State to another into territory which has excluded the sale. Men must answer for their influence upon others. What will money profit a man if his soul be not saved.

Success.

W. S. Lloyd, the enterprising druggist, rather than await the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to W. S. Lloyd and today there are scores of people here in Mt. Sterling who are using and praising this remarkable remedy.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, W. S. Lloyd has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally; when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

45-48

No Indictments in Hedges Ca At Carlisle, Ky., the grand jury adjourned after being in session for seven days and returned five indictments. One for murder; assault, with intent to kill, one; carrying concealed a deadly weapon, one; operating a pool table on Sunday, one.

"We have made a thorough investigation into the matter of night riding, including the death of Hiram Hedges, but we are unable, from the evidence before us, to make any indictments of any person for either night riding or the killing of Hiram Hedges."

LEXINGTON, KENTUCKY.

If a Man Toots you the first time it's his fault; the second time is your fault.

REGRET'S SPITEFUL.

Men are oft times by insistant methods induced to change their minds or take things that only a few moments before they declared they would not have. Clothing salesmen today are the most diplomatic in the world. For every objection a convincing answer is at hand. When a point is raised by a customer it is pushed aside and a greater point on a distracting subject is raised by the salesman. That's why men regret their purchases. That's why malice exists today in the business world. We don't try to sell a man just for the sake of getting his money. We never misrepresent a brand. We never offer for

Stein-Bloch or Hamburger

Clothes something just as good—there are none as good. They are the best and when you buy them you don't get regrets thrown in. Every year brings us closer to our trade and extends a feeling for mutual benefit. The folks today who wear our clothes are well dressed, are satisfied, are fit, and when you are in the quiet of your home, in front of your own mirror, away from the convincing salesman who pulls your coat here and there, the real test comes, the time for reflection. Our clothes stand the test. Before they leave the store they must fit to our satisfaction as well as yours. We are making new customers and seldom lose an old one. As this season's business shows a gain which is phenomenal in these times, we know that our work is not going astray.

STOOPS.

Levi Wells continues very sick. Early Robertson was in Mt. Sterling Sunday.

Grass seed crop will be much better than last year.

Coburn Hamilton, of near Owingsville, was here last week.

Byrd & Fassett sold two fine heifers to Hibler & Reid at 5c.

The crop of wool has been sold at an average of 15c per pound.

J. L. Gregory was at Salt Lick and bought a harness horse of A. Allington for \$150.

White clover is killing more cattle than it has ever killed in this section before.

The turkey crop promises to be great, as the chirp of the little ones can be heard on all sides.

Bad Attack of Dysentery Cured.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in stock and lost no time in obtaining it, and was promptly cured," says M. J. Leach, druggist, of Wolcott, Vt. For sale by R. H. White & Co., Druggists, 43-44.

In Shelby, Bath and other counties, Circuit Judges have instructed grand juries to investigate the sending of troops to the county by Gov. Willson.

Letter Carriers Appointed.

Postmaster Hall announced his appointments as carriers for city delivery. They are Richard French, Robert Turner and Buford Boone, with Kenny DeHaven as substitute. The delivery will begin on June 15, and the salary is \$50 per month to start with, increasing \$100 yearly until \$1,000 is reached.

The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cent sizes for sale by R. H. White & Co., Druggists, 43-44.

One Hundred Years Old.

Asa Bean brought to this office Monday a shaving box 100 years old. It was the property of his father, James Bean, deceased. It is a mahogany case and is in a remarkable good state of preservation.

McDonald Chief No. 1451

Will make the season of 1908 at my place on the Levee pike, within city limits, at \$20 to insure a Living Colt. McDonald Chief is a dark bay with black legs, black mane and tail, and carries his tail to perfection. He stands full 15 1/2 hands high, standard measure, sound and possesses as much natural style, all-around action, extreme finish, bone and substance as any living horse. Life is too short to experiment with breeding. No horse can be recognized as a sire until the results prove his rights. Perhaps no horse has stired colts more uniformly beautiful with such unquestionable action and courage or commanding higher prices. Mr. John T. Hughes sold two geldings by him in 1905, a 4-year-old to a New York gentleman for \$1,000 and a 3-year-old to Chicago parties for \$750.00. He is the sire of Martin Bros' Dandy Jim and Hughes' 4-year-old stallion, Red McDonald. His sons and daughters have a dam-line that they are show horses. They have won premiums both in saddle and harness classes at Lexington and all the prominent fairs of the Blue Grass Circuit, Louisville Horse Show and Madison Square Garden, New York. His dam, Lady McClelland, was one of the greatest show mares Kentucky has ever produced. His 2d, 3d and 4th dams were great show and famous brood mares. His illustrious sire, Rev. McDonald 553, is too well known to the breeders of Kentucky for us to say other than he is the sire of more fancy, high-priced show horses than any stallion living or dead, and the greatest show horse the world has ever known. As a show horse McDonald Chief has a record equalled by few stallions of his age, winning at Lexington and all the principal fairs of Kentucky, Ohio and Indiana, winning at St. Louis Fair and Kansas City Horse Show in his 3-year-old form. W. H. WYATT, Levee Pike, within city limits. MT. STERLING, KY. NO BUSINESS ON SUNDAYS.

Invited to Preach.

The University of Virginia yearly invites prominent ministers to preach before the student body. Among those invited for 1909 are three from Kentucky: Rev. E. Y. Mullins, Baptist, Louisville; Bishop Chas. Woodcock, Episcopal, Louisville; Rev. J. L. Weber, Methodist, Mt. Sterling.

"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop, of Racine, Wis. Not a grain of real Coffee is in it either. BURLEY SOCIETY

Agrees Upon Uniform Method of Distributing Proceeds of Sales Made by Pool.

AGREED UPON CRUCIAL TEST

Ninety Per Cent to Be Paid to Producers and Eight Per Cent Held as Reserve in Each of the Counties.

What Was Regarded as Crucial Test Agreed Upon After Two Days' Session of the District Board.

(Lexington Leader.)

The District Board of the Burley Tobacco Society at its regular session in Winchester, April 21 and 22, held the Tuesday afternoon and evening sessions to the interpretation of the by-laws of the society pertaining to the duties and prerogatives of the district board and the several county boards. Able and illuminating speeches were made in exposition of the laws governing these two bodies. The chief matter to be determined was the method of disbursing the returns from sales of the tobacco. The following plan was agreed upon:

Distribution of Funds.

In view of the fact that the question of collections and proceeds of sales and distribution of same has been considered at length at this meeting, and in view of the fact that previous motions have only covered separate features of the question.

Be It Resolved, That the following method of collecting and distributing funds as adopted by the Executive Committee be approved by this District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

5. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

6. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

7. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

8. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

9. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

10. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

11. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

12. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

13. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

14. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

15. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

16. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

17. That in counties where tobacco is not cultivated the society shall deposit to its credit in local banks in each county, as recommended by the County Board of Control and approved by the Executive Committee of the District Board, 95 per cent of the gross proceeds as soon as collected from the purchaser; 50 per cent of the whole amount is to be distributed to the owners at such time as the County Board of Control may designate, the remaining 5 per cent to remain in that county as a reserve fund.

18. going to charge 10 per cent for selling the tobacco was made to the pool. Such statements are very misleading and wholly incorrect. They have probably arisen from the fact that 10 per cent of the proceeds from all tobacco sold will be held back until all of each grade is disposed of. But this is not held back as a charge for selling the tobacco, but as a reserve fund to guarantee the man whose tobacco goes last, that if any contingency should arise whereby his tobacco does not sell for as much as did the tobacco which goes first, then there is something in the treasury of the Society to equalize with.

Every hunter who holds his tobacco in the pool has made the market just as much as has every other member of the pool. The market has been made and we are now selling tobacco. It can't be sold at once, somebody's has to go first. Is it fair that the man whose tobacco happens to go first gets all of his money at once, while those who are still holding, and have made the market just as much as did the first man selling, have nothing held back to assure them that all members of the Society will, in the event of a slump, receive the same price for the same grade of tobacco? Certainly not. The buyer of pooled tobacco will receive such a settlement that 10 per cent is retained temporarily at headquarters.

The object of the organization will be to get on a self-sustaining basis. The extra expense necessary in organizing and starting such a large move as this is. Once established many of these expenses can be eliminated. Every buyer of pooled tobacco pays the Society \$2 per hoghead, in addition to the pool price, buyer's fee, and this goes far toward defraying the expenses.

None of the officers of the Society, excepting the secretary, are salaried. They have not only given their time and money, but have also paid all of their own expenses, but they have also put up the money necessary to keep the organization going until it could get on a self-sustaining basis. Of course they expect to have this expense money paid back to them, but as to whether they shall receive anything in payment for their services rests entirely with the growers to say through their representatives on the District Board. The men who have taken the lead in this fight are all plain, practical farmers. They are in to win in a practical and honest way, to better not only their condition, but the condition of all tobacco growers. They are not seeking the limelight of publicity; they are not in the fight for the purpose of boosting political races, nor have they been promised any salary or salary, or any other such thing.

Insofar as the Shelby County Board of Control is concerned there is not a member of it who is a candidate for office, and those who are equalled intimately with the affairs of the Society are glad at any time to answer any questions that members may ask.

AN INSPIRING STRUGGLE

Tobacco Growers Win Victory for Right and Justice—A Little Leaven Leaveneth the Whole Lump.

(Dover News.)

It is a great hardship for many to cut out a crop of tobacco. It has been a great sacrifice to all to pool and hold two crops of tobacco and be deprived of the use of their money for over two years. Those who have already sold two crops while the others held up the market are in better shape to cut out the 1908 crop than those, many of them, who have had to borrow money to meet necessary expenses while making the fight for better prices. All together it has been the most remarkable struggle that this country has ever seen, and will go down in history as the most heroic demonstration of true patriotism ever witnessed since the foundation of the republic, and a living illustration of the fact that farmers can get together and accomplish wonderful results for the good of the country, when they do.

Think for a moment what the tobacco growers have accomplished. Against them has been, and is, the powerful tobacco trust backed by millions of wealth—a trust that the government itself has been powerless to curb—a trust backed by other no less powerful trusts, for all trusts stand together lest the downfall of one would mean the extermination of all. Against them are the commission warehouses in the large cities, because the plan of marketing tobacco must of necessity be changed and the enormous profits of the middleman cut off.

For the same reason the army of small dealers who depend for a living on the profits they can realize off the growers by speculating in tobacco are bitterly opposed to the farmers' organization and the cutting out of a crop, because when no tobacco is grown, or it is sold direct to the manufacturers by the farmers, their occupation is gone. Of all who oppose the farmers these have the least cause, for they

can use their capital to speculate in other products, or in other lines of business, or even loan their capital at interest, with equal chance of success. All of these, all the trusts everywhere, with the powerful metropolitan press throughout the land ever ready to serve the trust interests, have shown without stint or show discredit upon the farmers, attributing the cause for which they strive, attribute to them motives and deeds not borne out by facts, and echoing and repeating these misrepresentations to the eternal disgrace of proud old Kentucky.

Against all these odds the tobacco growers have won the victory for right and justice between man and man, and have cast off the shackles of an overbearing trust—won a victory that will inspire others banded by other trusts to take heart and strike for their rights. "A little leaven leaveneth the whole lump."

AMERICAN CITIZEN

Writes a Letter For the Thoughtful Consideration of Independent Grower.

KNOWLEDGE OF THE TRUTH

In the Following Communication a Substitute is Offered for the Letter Quoted by Dr. Powell.

"Society is Worth More Than the Individual or Hundreds of Individuals."

The gist of Dr. Powell's message to the Law and Order meeting was contained in a letter written by a supposed independent farmer to a supposed night rider, in which armed resistance was advised. The letter Dr. Powell commends belongs to the Sixteenth century, when each feudal lord with his retainers was sufficient unto himself, and when such ideas as community of interests, social consciousness, the solidarity of the race, were yet unborn in the English speaking mind. Those who applauded that letter are asked to consider the letter that follows:

Were I an independent tobacco grower in Kentucky and had entertained the thought of growing a crop in 1908 and upon going to my mailbox some bright morning should find it contained a night rider warning, I should make the following reply and post the same in a public place:

The Letter Offered as Substitute.

My Dear Unknown and Misdemeaned Friend: Your warning has been received and I herewith hasten to tell you that we have both been mistaken; but I now confess that my mistake preceded and provoked yours. I can even conceive that under high pressure you have brought yourself to believe that in these daring and perilous raids you are serving a good cause at the risk of your life and personal liberty.

However, even from your standpoint, a visit from you will not be necessary. In the still watches of last night the scales of custom, inertia, stubborn individualism, prejudice, preconception, selfishness, fell from my eyes, and I fully determined before your note was received to announce my conversion at the earliest possible moment. I have determined no longer out of any consideration of my own private and immediate good to put a stumbling block in the way of a great movement for economic progress for all the people for all time. If it must needs be that offenses come, I am resolved not to be the man by whom the offense cometh. I shall not lend credibility to Mr. Duke's statement that "farmers are just like a lot of mules; one will pull one way and one another, and you cannot organize them." The majority are organized and I shall no longer swell the ranks of the minority.

Short-Sighted Selfishness.

I still believe that in rigid adherence to the letter of the law I could claim the protection of the law and the military to carry out my selfish, shortsighted plan of raising tobacco this year; but I also realize that in this carrying out the letter of the law for my individual protection for one year, I should wound the spirit of the law and help defeat its purpose—not for one individual and one year only; but for all Kentucky, all the states, and for years to come—until such period as that men of my ilk should be no more. I now realize that "society is worth more than the individual or hundreds of individuals."

A Lesson From St. Paul.

Our lesson at family prayers last night was the sixth chapter of St.

Paul's letter to the Galatians. The first verse brought to my vision a rash, impulsive nature, whose error I had caused, but whose spiritual restoration in the spirit of meekness I had sought to bring about. Indeed, I had myself fallen a victim to as great a spiritual fault, selfishness, greed, perversity, and this fault of mine and the downfall of my brother, my voice grew thick in the second verse. I could see a sturdy group of my fellow-growers, who, through good and ill report, had labored for the liberation of our entire guild, while I, though from the first I had reaped the benefit of their efforts, had thrown all that I am and all that I stand for in their way. I have not only not helped to bear the burden which they carry for us all, but I have greatly increased its weight. I now confess that I "have no right to what I get out of society unless I perform my duty to society."

An Awakened Conscience.

I was very anxious in the evening of the lesson last night. I think my wife and children thought me less instructive than usual; but I had a mournful experience in the night and my tongue was loosened. I could but think how that band of men who at their own charges, without a single guarantee that even their expenses would be paid back to them, have carried forward this movement to lift us into a position of equal advantage with those to whom we must sell our produce—how they are supported by Paul's exhortation: "Let us not be weary in well doing, for in due season we shall reap if we faint not."

As we have opportunity, therefore, let us do good unto all men." What a comfort to those engaged in this good work was a rebuke to me, and determining that their portion should hereafter be mine.

Personal Pride Subordinated.

I am a man of no small executive and managerial ability. This fact my neighbors recognize. Indeed, though nothing short of a genuine conversion would enable me to confess it, it was not a little of this pride in my ability which kept me out of the organization at the beginning, since I did not originate it. It took some time to be able to use my ability in helping the Burley Tobacco Society to eradicate any errors it may have made and to aid in perfecting a plan that for work harmoniously, economically, equitably.

Strengthening a Pernicious System.

I realize that under forms of law, I and my fellow independents have been strengthening a system that strikes deep at the very foundation of the great American Republic; a system that came to its full fruition will reproduce in viler forms the very political, social, industrial, and economic conditions which brought our forefathers from Europe to found a free state in the Western wilderness.

I will no longer under forms of law fight against the spirit of Concord and the spirit of Liberty. I have seen and Yorktown of Kings Mountain and Guilford Court House. When I remember that the flower of that hardy stock that laid the foundation of a new world, penetrated farther into the wilderness, and at Boonesboro and Bryan's Station won the rich heritage which I enjoy, I hang my head to think that the true Kentucky spirit had slumbered in me so long. I, "a Kentuckian, who of all men should hold himself high and walk straight and true," the while my words in the face better than other men."

Tory Rather Than Patriot.

I blush that I should have been the Tory in the struggle rather than the patriot. I have taken as a bribe from the Tobacco Trust prices for my tobacco which you cannot get for your's because the trust on its part wants to disrupt the organization and I, in short-sighted selfishness, have been willing to accept the bribe, though I can but see that the destruction of the organization means a return to the miserable conditions from which the organization has lifted us all. It is small wonder that you class me with Benedict Arnold and Aaron Burr. I wish to erase the stain for the sake of my children.

An American Attitude.

I cannot look at the proud American flag and think of all that it stands for and not feel a sense of shame that since the beginning of this struggle until now, I have aided and abetted a commercial system that year by year is destroying the very things for which that flag stands. Our church interests wane for lack of money to support them; schools need better houses, better equipment, better teachers; longer terms; all our institutions suffer for want of better financial support, while we, like laggards and sluggards, are content with a scheme of corruption, year after year, to carry out of our state all the profit on one of our chief industries. In "attending to my own business" I find that I have not done even that well, and I am now ready to co-operate with my fellows in organization that I may better help for myself, but better for society, of which I am a member.

By begging your pardon that I ever brought to your attention that could have dictated your warning to me, and assuring you of my co-operation in all that pertains to our common interests, and hoping that all other indepen-

dents will come to the knowledge of the truth, I beg to remain faithfully and fraternally yours,
AN AMERICAN CITIZEN;
In Spirit as well as in Name.

Taft and Fairbanks in Kentucky

The Taft men in Kentucky have yet to realize the full meaning of their victory at the State convention. A few months ago Republican politicians went to Indianapolis and "promised" Kentucky to Fairbanks. The Kentucky orators on that occasion could not promise anything but their own votes, but for some unaccountable reason their promises were taken seriously and many newspapers and politicians were misled.

The declaration of Mr. W. O. Bradley that he would support Mr. Fairbanks, made so shortly after his election to the Senate, contributed to further deceive observers from a distance, and even after the county conventions in Kentucky, April 25, otherwise well-informed newspapers in the East were printing Kentucky in the Fairbanks column.

The allies, as the opponents of Mr. Taft are called, were made to believe up to the last moment that Kentucky would be against Taft. Therefore the awakening when Taft was given twenty-four of the thirty-six votes of the State was a rude one.

Now it further appears that the result in Kentucky had decided the Fairbanks managers of Mr. Bradley's election to Chicago that they gave it out weeks ago that Bradley would make the chief speech at Chicago nominating Mr. Fairbanks. Now Mr. Bradley is defeated as a delegate and will not be able to make any speech at Chicago.

Moreover, the Taft victory in Kentucky has made it plain that Mr. Fairbanks has no strength anywhere outside of Indiana. It is possible that the Fairbanks managers really worked harder to carry Kentucky than they did any other State in the country. More time and money was spent for Fairbanks in Kentucky than in any two other States combined, but Mr. Fairbanks only gets two votes in this State, and after months of campaigning these are the only votes secured by his managers outside of Indiana.—Evening Post, (Louisville) May 14.

Suggestions to Woodlot Owners.

The woodlot is a very large factor in the production of the raw material which supports the fourth greatest industry of the country. Although the area of a single woodlot is small, the cuttings are more frequent than from the large timber tract and it is probable that the total amount of timber produced by woodlots is greater.

Not only this: a farm without a good woodlot is incomplete. Usually, not less than one-eighth of the acreage of every farm should be devoted exclusively to timber growing. If properly managed the woodlot will supply the farmer with posts, fuel and building material, as suits his convenience best. It may even furnish some timber for market.

Again, the farm house should be protected from winds. For the livestock grower, shielding the barnyard and feedlots will reduce the quantity of grain necessary to fatten stock, since less food will be required to keep up the animal heat in winter. A belt of forest trees will greatly reduce the danger of late frost to the fruit blossoms of an orchard.

The woodlot should occupy the waste land not suitable for farm crops. Steep hillsides, ravines, swamps, sand dunes, creek banks, rocky slopes and corners cut off by ditches, creeks or railroads will sustain a good growth of timber and become an important source of revenue. Forest growth on steep slopes and river banks protects them from erosion by heavy rains and freshets.

The woodlot affords one of the best opportunities for the practice of forestry. It is accessible enough to allow of moderate cuttings at frequent intervals; its protection from trespass, grazing and fire does

How to Cure Constipation

Few people altogether escape a disorder of the bowels. You may catch cold, over-eat, over-drink, worry too much, not exercise enough or do a hundred and one other things that result in constipation or costiveness. When the trouble comes it is well to know what to do for it.

In the case of men there is no better cure for constipation than Dr. Caldwell's Syrup Pepsin, which anyone can obtain for 50 cents or \$1 at a drug store. We all have constipation occasionally, and the sensible thing to do is to have a bottle of this remedy always in the house. You take it as a nightcap, for example, and when you wake up in the morning your usual bowel produces its results.

Four stomachs immediately become lighter, your head clearer, your eyes brighter, your feet active and every organ again. Your appetite has returned and you are ready to work with enthusiasm and vigor. All this may have taken more than a dose or two, and a dose not to exceed two or three ounces. Can you afford to feel bad when you can feel good for so little?

Is it not better to have a bottle of Dr. Caldwell's Syrup Pepsin in the house of every family and to have it at hand to give to patients when they use it? It is without cost to the patient, and it is a cure for chronic constipation, dyspepsia, biliousness, indigestion, nervousness, headache, dizziness, flatulence, and similar disorders in old or young. It is a safe, pleasant, and effective purgative, and it is a cure for all the ailments of the bowels. It is a cure for all the ailments of the bowels. WORDS OF WISDOM FROM THE SOUSED ONE.

Gentleman Temporarily Off the Water Wagon Referred Disparagingly to Object Which Offended His Sense of Beauty.

There entered a downtown barber shop, a day or two ago, a man who had climbed down from the water wagon to make room for those who desired seats. He came in and looked about him genially. The boy came up to him to take his coat and hat, but he continued to just look about him and size things up. He wore good clothes, and the eight-day growth on his countenance didn't harmonize, but if he wanted to shave he didn't seem in any rush about it. He just looked around.

In the third chair was a man with one of those big bushy, drooping white mustaches. That mustache seemed to catch the eye of the soused one. He walked over to get a better look at it.

"Why dotehuh cut it off?" he inquired of the barber. Then he put a similar query to the man in the chair. "Why don't you have him chop it off, so you'll look like somebody?" he suggested.

The man in the chair looked around at him. "What are you talking about?" he asked.

"You know very well what I'm talking about," says the soused one. "I'm talking about that big white mustache. Why don't you have the man go over with his scythe?"

The barber was disposed to be good natured with the visitor, as he was harmless enough, and probably came in to get work done. Therefore he made no effort to chase him away.

The stranger went on to object. "It wouldn't take a minute for the man to clip it off."

"Say, what are you talking about?" demanded the one in the chair again. "What do you want with such a thing anyway?" went on the other one irreverently.

The man in the chair merely gave him a look of disgust, but the other one kept right on: "I'll pay the man to clip it off for you if you want me to."

The owner of the mustache demanded once more: "Say, fellow, what are you getting at, anyway?"

"Aw," snapped the pickled one, "you think I don't know what it is, eh? I know what it is all right, if I want to tell. It's a mustache, that's what it is. Why don't you have it cut off?"

And then he walked out without even getting a shave.—Cleveland Plain Dealer.

"Could Have Had It, Andy."

A writer on a morning daily says a Wall street man is responsible for this: "Did you ever hear of a man losing \$100,000 in cold cash because he forgot to ask for it?" asked a veteran stock exchange man. "Well, there is such a man," he continued, "and his name is Andrew Carnegie. When the Laird of Skibo sold out his steel interests to J. P. Morgan he got \$200,000,000 in 5 per cent bonds for his property. You know that, don't you? Shortly after the steel corporation was put into working order Carnegie and Morgan were on their way to Europe on the same steamer. Suddenly Carnegie said: 'John, don't you know I think that I ought to have got \$400,000,000 instead of \$200,000,000 for my holdings?' Morgan looked at him with that cold and sinister expression he always carries on his face when he is about to say something particularly soothing, and replied: 'Well, Andy, you could have had it.'"

The Beggar "Talked Shop."

"I've asked more'n a hundred people for the price of a cup of coffee to-day," said the beggar, approaching a man in Thirty-fourth street the other evening. "And how many cups of coffee did you win?" inquired the victim, handing over a dime.

"Honest," replied the beggar, "that's the first time I've got today. I took in a whole lot of pennies and a few nickels, but that's the first dime. Every time there's hard times on folks is the first to feel it. People's alms generous to us when they've got money, but when they've pinched we poor folks is most alms turned down. An' it ain't right. We got to live somehow." And the beggar shuffled off as happy as the ordinary man who is allowed to talk shop for a few minutes without being interrupted.—New York Globe.

"What are you doing to with that loggerhead turtle?" asked the tourist in Florida.

"Going to send it to President Roosevelt," responded the old waterman.

"Him? Don't you think it would be more appropriate to send him a bear?"

"No, I'm going to send him this old turtle because he is so opposed to race suicide. Just laid 599 eggs, by gosh."

ALL KNOW THIS MAN

THE TIME-STEALER ONE OF THE EVERLASTING NUISANCES.

Minutes, Hours, Days and Weeks Are His Plunder—Fast to Industry with Whom It is Very Hard to Deal.

He is known among his acquaintances and about everybody knows him—as the time thief. Not that he relieves his friends of their watches; that wouldn't be so bad, because watches can be replaced, but the time thief takes what can never be recovered or duplicated—minutes and hours, and days and weeks, which do belong to him. Unlike the ordinary thief who steals from those who have the most of what he covets, the time thief steals the most precious possession from those who have the fewest to spare.

The time thief is not ordinarily a bad sort of fellow. But for his pernicious habit of taking what does not belong to him he might be a good citizen and an ornament to society. The modus operandi of this foe to industry constitutes the peculiar enormity of his offense, for he carries on his nefarious business openly and honestly, perceiving that he is an angel of beneficence to his fellow men.

He "blows" breezily into the office of his victim at the busiest hour of the day and this is what takes place:

"Hello, old chap," says the time thief, slapping his victim on the back. "There you are with your nose at the grindstone again. You'll peg out one of these days and never know you've been alive."

"How are you?" returns the victim, with forced politeness, for of course it is impossible to kick the time thief. "You'll excuse me if I finish what I'm at here—awfully busy this afternoon."

"Huy, nothing," says the time thief, jovially. "You only think you're busy. Nothing but habit, old man, nothing at all but habit. If I didn't drop in every day or two to jar you out of your rut, I don't know what would become of you. Now, just chuck that pen while I'm here and put your feet up on the desk. Got a little story I want to tell you."

But the victim, who has been through all this before, laughs as politely as possible, and keeps on with his work. If the time thief didn't have a hide as thick as an alligator he'd take the hint and ramble out. But such a course never occurs to him. Being a time thief, he won't go until he has obtained enough plunder to make it worth his while. Accordingly, he plunks himself down in a chair, puts his feet on the desk, and tells his little story. The telephone rings, visitors arrive to transact business with the victim, the office boy comes in with papers for him to sign. These are very annoying interruptions for the time thief, but they do not discourage him to the point of giving up his attack. He always begins again at the point where he left off and carries his story through to the end and begins another.

The time thief never has any business of his own, and never can see why anybody else should. He is a parasite, and he says boastfully:

"I look 20 years younger than you do now, and I'll live that much longer than you. All because I know how to live. Well, so long for now; I'll drop in again to-morrow and cheer you up again."

Although the time thief boasts that he knows how to take things easy, it would be worth while to have him tackled by another time thief. The chances are that he would see things in a different light at once. But the effect would only be temporary, and he would pounce on his victim with all the more delight at the next opportunity. In all probability the time thief will last while time lasts.

Gorillas Terrorize Congo Natives.

Alfred Yorke, a young explorer, who has returned to London from the French Congo, brought back with him three immense gorillas. He states that a section of the French Congo and the German Cameroons is filled with these big beasts.

The natives had been driven away by the ferocious animals, which had even succeeded in getting rid of all the monkeys.

These animals are generally armed with heavy clubs, and woe to the caravan that is attacked by them. Mr. Yorke describes one such incident that happened to the caravan with which he was traveling, and says that he and his companions owe their lives to the large amount of ammunition they carried, with which they succeeded in routing the gorillas.

Color Photography.

The London Times says that the work of pioneers in color photography has reached a promising stage and that a plate is now on sale upon which a fairly satisfactory heliochrome transparency may be made with one exposure and with little more trouble than when making an ordinary negative.

Why He Fought.

Magistrate—Pat Murphy, the constable says you were fighting. What have you to say for yourself?

Pat Murphy—Well, your worship, I had a clean white shirt on, an' Oi was so mighty proud at it that Oi got up a bit of a row wid a mon so an' Oi cut his me coat an' wescot off and show it.

May Court.

There was an unusual big run of cattle for May, fully 5,000 head. The quality was fairly good. The best 1,000 to 1,100 lb. steers sold by weight as high as 54c, with some selling by the head at higher prices. Yearlings at 5c. Heifers at 34 to 41. Cows at \$8 to \$8.85. Bulls at 3c. Cannars at 2c. Trade was slow, buyers claiming prices were too high. A good many cattle, fully half of them, left over unsold at night. It does look like prices are on the danger line when stock cattle sell as high as 54 to 6c, and some sold by the head brought fully those prices Monday. We are afraid our mountain traders were caught with too many high priced cattle on hands Monday.

SOME SALES.

J. H. Faratt sold 123 450 lb. steers to A. J. Morrow, Georgetown, O., at 41c. Mr. Morrow bought over 250 head.
Knox & Swanton sold 13 650 lb. steers to Bud Meyers at \$4.60.
Dink Murphy sold 5 1050 lb. steers to A. C. Kidd, of Clark county, at 5c.
Asa Ecton sold a bunch of 600 lb. steers to Lucien Bridgeforth at 41c.
W. A. Stevens, of Clark county, bought 39 about 450 lb. heifers of Murphy & Co. at \$17.50 per head.
Lee Jones, of Bath county, bought 26 about 425 lb. heifers of Sam Wiseman at \$17.50 per head.
Silas Barber, of Bath county, bought 20 about 500 lb. heifers of Green Allen at \$20.75 per head.
W. W. Gay, of Clark county, bought 25 1,000 to 1,125 lb. steers, paying from \$5 to \$5.25.
Albert Bourne bought 25 600 lb. yearlings at 5c.
Chas. Duff bought 25 750 lb. cows of various parties at 31c.
Wm. Kane, of Nicholas county, bought 25 about 450 lb. steers of

Sam Keeton at \$23.75 per head.
Geo. Halsey sold 6 1,000 lb. cows to Oscar Moss at \$3.80.
Henry Murphy sold 19 900 lb. cows to Sam Laythrum, of Bath county, at \$3.60. Mr. Laythrum also bought some 600 lb. heifers at \$4.25.
Hudson & Co. sold 4 800 lb. steers to A. C. Kidd, of Clark county, at 5c.
J. M. Daniel sold 10 1,000 lb. smooth oxen to E. R. Little at 5c.
Jas. Arnett sold 22 800 lb. cows to Pete Maloney, of Carlisle, at 3c.
Wm. Treadway sold 20 650 lb. heifers at \$4.25.

Many other sales made at about the prices quoted above. Some of our stockmen are part of a company that have bought the Lockland yards at Winchester, Ky. Mr. John Cockrell being one, and he will represent the yards at this point. Cattle men going to Winchester will do well to see Mr. Cockrell.

HORSES AND MULES.

Very few mules for sale and good ones were scarce. Greenwade & Co. sold one heavy mare mule at \$225, and one pair 16 hand mules at \$440. But very few sales made. Horses were about as usual, with the demand strong for fine horses, with few in sight.

Federal Court at Jackson.

On Monday the U. S. Senate passed a bill establishing a Federal Court at Jackson, Ky. The bill carries an appropriation of \$100,000.

Guthrie's suits at \$9.95 equal any shown by other merchants at \$15.

WINCHESTER.

(Democrat.)

The town's wallpuss is out.

While Willson's soldiers were here they established their headquarters in one of the saloons in the city and got money to pay for their drinks by selling their clothes at cut-rate prices.
[We heard no report like that here.—Ed.]

The Howard and Powers cases have cost the State in fees, about \$100,000. It is estimated that the Howard case cost \$10,000 each trial.

Mrs. Geo. Tomlinson was hostess Wednesday afternoon. Forty-two was the diversion. She was attired in a beautiful and becoming gown. Mrs. Geo. Hon assisted in entertaining.

Jos. McClure killed a fishing eagle six feet from tip to tip of its outstretched wings.

The Clark Fiscal Court should require a license of Gov. Willson's soldiers for wearing out their pikes. [If the Governor thinks that troops are necessary for protection of property and life why kick about a few rocks being worn out? Where is your wallpuss.—Ed.]

The L. & N. road was fined for obstructing Flanagan street. While the water tank remained it was difficult to take water without obstructing the street. In consequence, the road is removing the tank.

C. C. Stamper, of Campton, and Miss Beulah Ethel Hanks, of Ashland, were married in this city by Rev. Chandler.

Jonah R. Bush, agent, sold to Dr. Percy Benton, of Broadhead, the residence of John Harding on Burns Avenue, for \$2,300.

Miss Marietta Calmes died at her home in Boone county, aged 19 years, of nervous prostration.

WOLFE COUNTY.

HAZEL GREEN.

Lee Caskey, of Grassy, fractured both bones of right wrist.

Troy Pieratt, of Kiddville, visited here last week.

Mrs. Henry Ward has returned from Honaker, Va.

Twenty-one young ladies gathered at the home of Editor Spencer Cooper and wife. Each left a 5 cent piece; two who could not come sent 5 cents each. The editor says he heartily enjoyed the occasion.

Henry Ward has gone to Fort Duchesne, Utah, in Government irrigation service.

Albert Henry, of Oklahoma, age 26, who left Morgan county 20 years ago, is visiting here.

Charley Rose bought of Henry Murphy a pair of oxen, weight about 3000 pounds, for \$140.

All merchants require a profit, but some require more than others. We don't require much.

City School Superintendent.

The trustees of the Mt. Sterling Graded School held a meeting last week to elect a Superintendent to take the place of Prof. Gunn, who voluntarily retires. Prof. W. O. Hopper was elected to the position. For two years Prof. Hopper has been engaged in teaching in our city. His first year was with the Mt. Sterling Collegiate Institute, his second was and is with the institution to which he is now elected Superintendent. He is a graduate of Centre College.

We are not acquainted with his powers as a teacher and manager, but the trustees who have thoroughly considered the various applications and who have been in positions to know his qualification have chosen him to this important work, and he will no doubt meet their expectations. During the vacation he will in Chicago take a special course to aid him for the most efficient service as Superintendent. We wish him success.

We have no book-keepers or clerk hire to pay, so can sell you shoes cheaper than any one else.

Stole an Automill.

At Louisville last week at one o'clock in the morning a negro stole a \$2700 auto and took another man and four dannels out riding. On Third street he let the machine go at full speed, 45 miles per hour. He expected to turn a corner. Result: Iron fence broken, stone coping split, a auto completely wrecked, one woman dangerously hurt, three cut by glass and one thief caught up with. The negroes were servants of families in the Highlands.

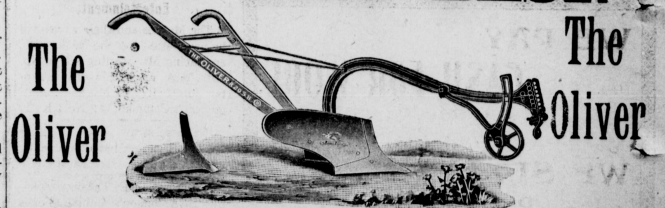

There is a Pink Pain Tablet made by Dr. Shoop that will positively stop any pain, anywhere, in 20 minutes. Druggists everywhere sell them as Dr. Shoop's Headache Tablets, but they stop other pains as easily as headache. Dr. Shoop's Pink Pain Tablets simply coax blood pressure away from pain centers—congestion. Stop that pressure with Dr. Shoop's Headache Tablets and pain is instantly gone. 25 tablets 25c. Sold by F. C. Diersen. 43 m

Montgomery College.

Plans are perfecting for a thor-
ough canvass for Montgomery
College—not to secure gifts for
the enterprise, but to give all citi-
zens a chance to take stock in it.
The establishment of the College
means much for the financial inter-
est of the county. We ask of the
citizens of the county and city
their hearty support and sympa-
thy. An interesting meeting was
held at the Court House on Fri-
day evening. The speakers were:
Rev. J. L. Weber, C. D. Grubbs
and Jno. G. Winn. All were en-
thusiastic for the College.

DEATHS

WILLIS—Dr. Samuel Willis, of
Winchester, aged about 70 years,
died on Sunday afternoon at the
home of his son-in-law, B. R. Jou-
ett. He was paralyzed six days
before his death. He was born in
Madison county, and after gradu-
ating at a medical college located
near Pine Grove, Clark county,
and has been a prominent citizen.
He married Miss Coleman, of Fay-
ette. She, with seven children,
survive him. The funeral service
was on Tuesday afternoon.

MOSES.—News has come of the
death of Mrs. Helen E. Moses,
National President of the Chris-
tian Women's Board of Missions,
and one of the most widely beloved
and best known women in the
United States, which occurred at
her home in Indianapolis on Sun-
day. She leaves a large number of
friends in Lexington who are in
deepest grief at her loss. Mrs.
Moses was the wife of Mr. William
Moses, and had been in failing
health for several years. She spent
the months of last December
and January in this city under the
care of a Lexington specialist, and
had been better until two weeks
ago, when hemorrhage of the
throat began, causing her death.
The loss to the C. W. B. M. work
can scarcely be estimated, as she
was its great leader and inspira-
tion. With Mrs. Moses as National
President the Board has establish-
ed schools at Hazel Green, Ky.,
Morehead, Ky., and in Porto
Rico, Cuba, China, Japan and
other countries. Mrs. A. M. Her-
rison left yesterday afternoon for
Indianapolis to attend the funeral,
which will take place there today.

FOR PURE FEED.

Conviction of Dealers in Covington and Kentucky.

At Covington four dealers in feedstuffs were found guilty of selling adulterated preparations for animal food, following investigations made by J. D. Turner, of the State Agricultural Station at Lexington. Verdicts of guilty were accepted by four dealers in ten cases each, the fines and costs each one will have to pay amounting to \$500.

Tired nerves, with that "no ambition" feeling that is commonly felt in spring or early summer, can be quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter time, the circulation often slows up, the kidneys are inactive, and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out, weakened nerves; it sharpens the falling appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor, and ambition. Try it and be convinced. Sold by F. C. Darius.

Asks Lexington's Aid for Medical College.

President James K. Patterson, of Kentucky State University, addressed the Lexington Commercial Club on the part Lexington should do in aiding the university to establish a medical college. Since 1880 the university had caused to be expended in Lexington between four and a half and five millions of dollars, and that a medical college would be of more direct financial benefit to the city. He estimated that if the business men of the city would contribute from \$50,000 to \$75,000 with which to erect the necessary buildings the college could be established by the university. The Commercial Club will take up the matter at once.

Many Babies Born on Ocean

The Hartford W. C. T. U. heard of a very interesting branch of the national association's work at a recent meeting, when Mrs. Mary R. Wilson, of Philadelphia, national superintendent of work among foreigners, told of her department. Of peculiar interest was her account of charity and philanthropic work on the ocean liners. One feature of this, she said, was providing clothing for babies born on the voyages. The clothing, made in the simplest manner, is contributed by members of local unions and distributed among the various steamships, the stewardesses gladly taking charge of the distribution to the mothers.

Mrs. Wilson said that there was a great need for this work. One stewardess told her that on the last voyage from Europe forty babies had been born on the big liner. Many of these were in the steerage and the stewardesses are often obliged to go to the linen closets and make improvised clothes out of sheets.---Hartford (Conn.) Courant.

No Troops at Maysville.

Reports sent from Lexington to Cincinnati papers on Tuesday last week that two companies of State militia were stationed at Maysville to guard tobacco warehouses belonging to the American Tobacco Company are false. There were no troops stationed in Maysville or in Mason county. The warehouses contain nothing but machinery.

To Care For Lepers.

The Rev. Father L. L. Conrady, who spent eight years as a companion of Father Damien caring for the lepers at the Molokai settlement, passed through here on the steamship Asia, on his way to establish a home and settlement near Canton for the lepers of the Kwantung provinces. There are 25,000 lepers in these provinces. To establish this work among the Chinese lepers has been the dream of Father Conrady for many years.

In order to fit himself for the work, he took a course in medicine when nearly 60 years old at the medical college in Portland, Ore. He has traveled very widely in the interests of his work, and has now secured a capital fund of \$30,000 for the work. He intends to buy about ten acres of land on the river not far from Canton for the home he hopes to establish. The work is under the approval of the Catholic Bishop of Kwantung. As assistants he will have members of the same Catholic orders as are engaged in the work of caring for the lepers on Molokai.---Honolulu Cor. of the San Francisco Chronicle.

Whooping Cough.

"In February our daughter had the whooping cough. Mr. Lane, of Hartland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by R. H. White & Co., Druggists.

DOWNWARD COURSE

Fast Being Realized By Mt. Sterling People.

A little backache at first. Daily increasing till the back is lame and weak.

Urinary disorders quickly follow. Diabetes and finally Bright's disease. This is the downward course of kidney ills.

Don't take this course. Follow the advice of a Mt. Sterling citizen.

Robt. Sheridan, living on South Queen St., Mt. Sterling, Ky., says: "I have used Doan's Kidney Pills off and on for two years and have found them to be a remedy that acts up to representations. I suffered greatly from lumbago which came on in attacks, some of which were so severe that I could scarcely straighten. I had severe pains through my back and kidneys which at times extended into my shoulder blades. I was also annoyed by an irregular action of the kidneys, and think that the hard work on the railroad was responsible for all my suffering. I was unable to find relief until I procured Doan's Kidney Pills at F. C. Duerson's drug store and I continued taking them until at present I am almost entirely cured."

Mediator in Panama.

Gov. Magoon, of Cuba, announced a dispatch from Secretary Taft, inviting him in the name of the Panamanian administration and people to go to the Isthmus to settle disputes that had arisen. He answered, stating that he would give two weeks, beginning June 1, to the consideration of these questions.

FITZ SHOWS KNOCK-OUT PUNCH.

Ruby Robert Gives Demonstration Much to His Borrow.

Ruby Robert Fitzsimmons is always ready and willing to illustrate before sporting men just how he knocked Jim Corbett out at Carson City with his memorable solar plexus punch. Not so many years ago his former manager, Percy Williams, now a well-known theatrical manager, asked Fitz to show a number of friends just how Corbett was annihilated. Robert was in fine form then, as he was training for a fight at the time.

He promptly complied with the request by calling upon Percy Williams, a brother of his manager, to stand up and be a victim. Reggy, however, had been there before and knew the power of the Cornishman's blow, so he was not overzealous to take part in the exhibition. So he said to Robert: "Wait a minute, Bob, until I go and get a stiff brace for I need corrag." "All right," replied Fitzsimmons with a grin, "but hurry." Reggy stepped over to the bar, took a slip of paper and then picking up a thick board he slipped it under his vest. Then he came back with the remark:

"Do about Bob, but not too hard." Fitz jumped about, feinting and sparring off like a real fighter. Then Robert shot out his terrible left and hit the mark with a crash. It sounded like a blow on a board fence with a sledge hammer, and though Williams was knocked down, he jumped up quickly and laughed until his sides shook. Fitz was dancing around on one foot, with his left hand under his arm and a look of intense pain on his face.

"What's the matter, Bob?" asked Percy Williams, who was next to the trick.

"What's the matter?" roared the angry Cornishman. "Why, me blooming and is smashed! That funny brother of yours has a sheet of iron under his vest!"

Fitz was a mark then for a lot of

giving, but the joke was a serious one, for his left hand was in politics for six weeks.

Animals Without Moral Sense.

Prof. Schuster asserts that animals lack moral feeling entirely, none of their acts being immoral or moral, in the broad sense, and that they have no trace of a sense of shame or of honor. Their courage he declares is "a mere impulse of nature," and of moral courage they know nothing. He continues: "And animals have no pride, in the sense of man's conception of that quality. They are not proud of their kind, or their kindred, or their individuality. They neither have an individuality nor are individual. Animals are not proud because they have no consciousness of the scope of the value of their kind, of their enterprise or of any other form of their capability; they are neither supercilious, proud, nor the contrary, that is, they are wounded or depressed in regard to a possible pride."

Praises English Jurisprudence.

Elbridge L. Adams, of Rochester, N. Y., a lawyer, who has made a study of British jurisprudence, surprised his colleagues at the annual meeting of the New York State Bar association when he made a comparison between the American and English methods of legal procedure. He asserted that 23 judges of the supreme court of England, with a population of 32,000,000, disposed of as much business each year as 98 judges of the supreme court of the United States, with a population of 8,000,000. "In addition to this," said Mr. Adams, "these English judges do as much work as the federal judges in New York state. The object of the English rules is to provide the best, the quickest and the simplest methods."

Pet Dog Buried with Honors.

Lassie, a high-bred collie dog that was descended from an animal prized by Queen Victoria, was interred with nearly all the honors usually accorded a human being in Baltimore, the other day. Lassie was a fine, large, intelligent animal, and the pride and pet of the neighborhood. Owing to the affection in which Lassie was held, unusual care was taken in the dog's burial. A stilted box was made by an undertaker, which had been upholstered and had satin trimmings. The box was hermetically sealed. Lassie was a direct descendant of the pet collie of Queen Victoria. Lassie was the subject of a poem written by Tennyson.

An Almanac Church.

In the tower of St. Botolph's church, Boston, England, are 966 steps, corresponding to the days in the year; the church has 13 pillars, 52 windows and seven doors, representing the months, weeks and days in the week. In the west porch, says the Church Almanac, are 34 steps (according to the library above), representing the hours of the day. Again, on each side of the altar is a direct leading to the roof, denoting on the one side the minutes and on the other the seconds of the hour.

Cremation in Scotland.

The movement in favor of cremation is making slow but steady progress in Scotland. According to the latest report of the Scottish Burial Reform and Cremation society the past two years show a remarkable advance as compared with the immediately preceding year. In 1905 there were 36 cremations in Scotland, in 1906 the total rose to 41, and in the year ending September last it was again 41.

Freight Trains Exempted Under "Jim Crow" Statute.

As railroads are exempted from furnishing separate apartments for white and colored passengers under the freight train caboose section the judgment of the Mercer Circuit Court fining the Southern Railway \$500 under the "Jim Crow" law, was reversed by the Court of Appeals at Frankfort.

The railroad company was fined for its alleged failure to provide coaches for white and colored passengers on the short line between Burgin and Harrodsburg. The passengers rode in a caboose, which is exempted under the "Jim Crow" law.

Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulder. The circulation is impeded, and the entire system suffers from lack of nourishment.

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and muscles.

"I had palpitation and pain around my heart, and the circulation was so weak, I don't believe it now, for I have taken six bottles of Dr. Miles' Heart Cure, three bottles of the Nerve and Blood Purifier, and I feel better than I have for five years and it is all due to these remedies. I never knew that I had such a weak heart. It relieved me from the pain in my chest was gone, and I kept on taking it." JOHN H. SHERMAN, Bowling, Minn.
